

DIESEL ROTARY INJECTION PUMP CUT-AWAY, BOSCH

N98-ND10240

This model of the most popular rotary pump (Bosch VE) has been carefully sectioned for training purposes to show all of its operating parts. The distributor (during the gas oil pumping and distribution phase), the transfer pump, the speed governor, the automatic advance regulator, and the fuel circuit are clearly displayed for training purposes. The model is operated manually by crank handle and a indirect injector is included.
