

# MANURE SPREADER CUT-AWAY, AGRICULTURAL

N98-ND8640

This cut-away model of a pulled manure spreader has been carefully sectioned for training purposes and professionally painted with different colors to better differentiate the various parts, cross-sections and lubricating circuits. Many parts have been chromium plated and galvanized for a longer life. This unit operates electrically and requires a 120 volt power source. It runs at a reduced speed to allow students to easily understand and observe the operation of the various mechanical parts.

## SPECIFICATIONS

- Hopper
