

FERRARI V8, CUT-AWAY ENGINE

N98-FERRARI2

The Ferrari V8 cut-away engine is masterfully produced by professional engineers and is an expression of automotive passion. This engine is uniquely cut to showcase the internal components of this legendary sports car. This colorful training aid is excellent as the centerpiece of your automotive program, as a display in the main entrance/lobby of your program or museum, or as part of your personal collection of racing cars.
