

# AIR BRAKE DISC CALIPER & ROTOR CHAMBER CUT-AWAY

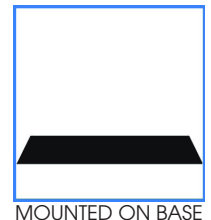

N98-ND12195-AB

This model is a subset of the larger Air Braking System for Trucks Panel (N98-ND12195). The core focus is on the Air Brake Disc Caliper that is connected to the Rotor Chamber. Instructors and students will benefit from the close-up presentation and detailed aspects within these important components. It is assembled and presented as a tabletop model.
