

FIAT 4-Cylinder Gas Engine with Carburetor and Gearbox, Electrical Operation

N98-ND5000

This product is a cut-away of a 4-cylinder gas engine with a carburetor and a gearbox. It has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life. This engine operates electrically and requires a 120 volt power source. It runs at a reduced speed to allow students to easily understand and observe the operation of the various mechanical parts. It is mounted on a stand with wheels.

SPECIFICATIONS

- Displacement: 1,200/2,000cc approx.
- Camshaft in the crankcase, belt/chain drive
- Overhead valves in-line
- Coil ignition
- Mechanical fuel pump
- Gearbox: 4 forward speeds + reverse
- Dry single-plate clutch
- Operates electrically at 120V
- Mounted on stand with wheels

WEIGHT AND DIMENSIONS

60cm x 155cm x 90cm (L x W x H)

Net Weight: 140 kg

Gross Weight: 185 kg

OPERATES
ELECTRICALLY

MOUNTED ON
STAND WITH WHEELS
