

MOTOR CULTIVATOR CUT-AWAY, SINGLE-CYLINDER ENGINE

This modern Motor Cultivator uses a gas powered single cylinder, air cooled 6/10 hp engine. The cut-away model has been carefully sectioned for training purposes, professionally painted with different colors to better differentiate the various parts, cross-sections, lubricating circuits, fuel system, cooling system, and other key components. Many parts have been chromium plated and galvanized for a longer life. The engine operates electrically and requires a 120 volt power source. It runs at a reduced speed to allow students to easily understand and observe the operation of the various mechanical parts.

SPECIFICATIONS

- 4 stroke, single cylinder gas engine
- Power: 6 Kw
- Recoil starter
- Dry clutch with manual control
- Gearbox MTC 3+2
- Reverse command by lever
- PTO
- Adjustable handlebars
- Motor-stop safety device
- Compliance: CE Mark

WEIGHT AND DIMENSIONS

70cm x 180cm x 110cm (L x W x H)

Net Weight: 100 kg Gross Weight: 150 kg

OPERATES ELECTRICALLY

Version2.1.JL030716
