

AIRCRAFT ENGINE, LYCOMING

N98-ND9260

This cut-away aircraft engine runs at a reduced speed to permit students to effectively learn and observe the internal operation of the various mechanical parts. It is carefully sectioned for training purposes and professionally painted with different colors. The instructor and student can easily differentiate the various parts, cross-sections, lubricating circuits, fuel system, and cooling system.

SPECIFICATIONS

- Lycoming aircraft engine (four-cylinder or six-cylinder, depending on availability)
- Air cooled system
- Gear distribution with camshaft in the crankcase
- Ignition with magneto
- Single barrel carburetor
- Mounted on stand with wheels
- Options: Manual Crank or Electrical Operation 120V with Compliance CE Mark & UL Components

WEIGHT AND DIMENSIONS

140cm x 110cm x 150cm (L x W x H)
 Net Weight: 190 kg
 Gross Weight: 280 kg

OPERATES
ELECTRICALLY

MOUNTED ON STAND
WITH WHEELS
